

**Shape  
the Future of  
Renewable Energy**

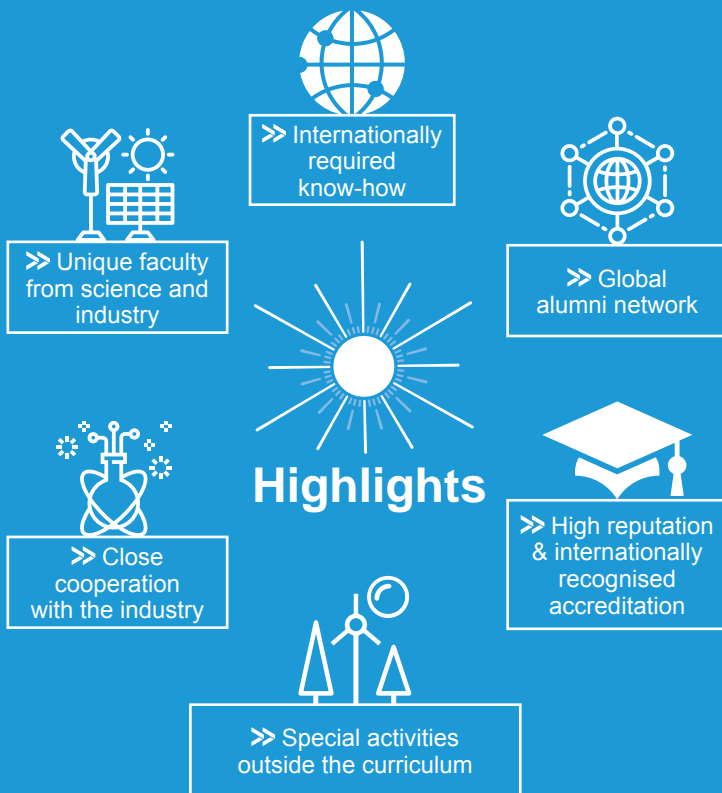

## MSc (CE) Renewable Energy Systems

TU Wien | Energiepark Bruck/Leitha

Postgraduate Program

Since  
**2005** | MSc (CE)  
Renewable  
Energy Systems

## Expertise for the most important topic of our times

More than ever, identifying pathways for heading towards sustainable energy systems must be our priority.

Integrating all the usable renewable energy systems available into already existing grids and furthermore, building new intelligent grids is another main challenge of our times.

The demand for the fast-growing renewables sector for well-founded know-how has increased tremendously. The complementary strengths of the TU Wien and Energiepark Bruck/Leitha makes this interdisciplinary MSc(CE) Program an outstanding opportunity to satisfy the market demand worldwide.

This part-time master's program is designed to give the participants a state of the art skill-set to become experts in their respective fields of interest.

### PROGRAM OBJECTIVES

With the MSc(CE) Program, the participants acquire knowledge and competence for

- » Planning and operating of facilities using renewable energy sources
- » Understanding economic and legal frameworks concerning renewable energy topics
- » Strategies and means to promote the energy transition and system integration
- » Future assessment of environmental, technical, and economic developments of renewable energy systems
- » Introduction of innovative concepts such as sector coupling, power-to-X, hydrogen, storage, flexibility, smart grids, electro mobility and the relevance of AI

### FINAL DEGREE

The MSc(CE) Program is concluded by writing a Master's thesis. Achievement of the final degree

**Master of Science, MSc(CE)** granted by the TU Wien.

### ADMISSION REQUIREMENTS

- » Completion of a subject-related study program in technical and natural sciences, economics, or law at a recognized Austrian or foreign post-secondary institution of education and a minimum of 2 years of professional experience

**LANGUAGE OF INSTRUCTION:** English

### COHORT

- » Cohort-based program comprising 20–25 students annually
- » Varied academic and professional backgrounds and interests, spanning engineering, physical and social sciences, business, and humanities
- » Gender-balanced, demographically-diverse, purpose driven, globally-representative

### LOCATION AND TIMING

Two years (4 academic semesters), Part-time, blocked modules, in-person and some online, classes held 4–6 days a month (9 am–5 pm), TU Wien or Energiepark Bruck/Leitha plus excursions.

### WORLD-CLASS FACULTY

- » Energy and sustainability professionals
- » Scientists and tenured faculty who deliver academic rigor from a practitioner's perspective
- » Experts with interdisciplinary actionable insight

### PROFESSIONAL OUTLOOK

- » Now is the right time to accelerate your career in the rapidly expanding global energy and sustainability workforce.
- » A powerful combination of engaged alums and program network has supported extremely competitive placement and compensation rates for our graduates.
- » Students frequently recruit into consulting and advisory, renewables developers and utilities, corporate and municipal sustainability (operations, food/water, supply chain & procurement, environmental), and energy and decarbonization engineering.

# MSc(CE) Renewable Energy Systems

**TU Wien I Energiepark Bruck/Leitha**

Class 2025–2027

## DURATION AND TIME SCHEDULE:

The part-time program is presented in modules and takes four semesters. Blocked modules and weekend lectures facilitate compatibility with professional life. Lectures take place on 4–6 days a month from 9am–5pm.

## HIGHLIGHTS:

- Unique combination of up-to-date scientific knowledge and practical learning
- Dynamic on-site lectures are accompanied by field trips to experience renewable energy at first hand and deepen the knowledge practically

## NEXT PROGRAM START:

November 6, 2025

## LOCATIONS:

The MSc(CE) Program is held on several locations: Vienna, Bruck/Leitha; selected courses live online and field trips.

## Schedule

FIRST SEMESTER	SECOND SEMESTER	THIRD SEMESTER	FOURTH SEMESTER
THU Nov 06, 2025	WED Mar 11, 2026	THU Sep 10, 2026	Master's Thesis Mar 2027–Aug 2027
FRI Nov 07, 2025	THU Mar 12, 2026	FRI Sep 11, 2026

# Curriculum

## MODULE 1 | 4 DAYS

### Introduction on Renewable Energy

- Non-conventional energy production, energy mix, energy trade, international and European programs and conventions in the sector of renewable energy;
- Economic aspects of renewable energy, basic economics, basic management, introduction on risk evaluation and risk management;
- Structural planning;
- Distribution networks (electric, thermal, gas), feeding-in and control of distribution networks; Practical examples of network interaction.

6 ECTS

## MODULE 2 | 8 DAYS

### Biomass, Biogas, and Biofuels

- Principles of energetic use of biomass (physical, chemical), available raw material resources, and ecological resource management
- Plant engineering for the energetic use of biomass (electric, thermal, gas, liquid);
- Planning, construction, implementation, operation, and maintenance;
- Economic evaluation, risk, and cost aspects;
- Practical examples, field trips to existing plants.

15 ECTS

## MODULE 3 | 7 DAYS

### Solar Energy – Solar Heating and Photovoltaics

- Physical principles of the use of solar energy;
- Potentials;
- Plant engineering for the use of solar energy (electric, thermal);
- Planning, construction, implementation, operation, and maintenance;
- Economic evaluation, risk, and cost aspects;
- Practical examples, field trips to existing plants.

10 ECTS

## MODULE 4 | 9 DAYS

### Geothermal Energy, Wind Power, and Small Hydro Power

- Physical principles of energy usage;
- Available resources, potentials;
- Plant engineering for energy generation (electric, thermal);
- Planning, construction, implementation, operation, and maintenance;
- Economic evaluation, risk, and cost aspects;
- Practical examples, field trips to existing plants.

15 ECTS

## MODULE 5 | 5 DAYS

### Efficient Energy Use and Thermal Building Optimization

- Physical principles, energy demand of buildings, building services engineering;
- Optimised building concepts, potentials, opportunities;
- Energy efficiency in the public sector and in companies;
- Outsourcing of energy supply services;
- Economic evaluation, risk, and cost aspects;
- Analysis of practical examples.

10 ECTS

## MODULE 6 | 5 DAYS

### General Legal & Economical Frameworks

- Legal aspects of renewable energy according to the EU regulatory system
- Basics of European Community Law
- Austrian national legal basis of renewable energy
- Valuation and Financing of Energy Projects
- Business Plans for Energy Projects
- Financial Planning for Energy Projects
- Principles of Accounting
- Tax law
- Investment law / Licensing Procedure

10 ECTS

## MODULE 7 | 8 DAYS

### Integration of RES into the Energy System

- Fundamentals of electricity markets and CO<sub>2</sub> emissions trading
- Basics of electricity grids
- Future role and responsibilities of transmission grids
- Grid integration of renewables and the concept of Smart Grids
- Market integration of renewables and storages
- Direct marketing of green electricity
- Example for integrating RES-E into the grid

14 ECTS

## MODULE 8 | 6 DAYS

### Management and Soft Skills

- Operative organization, team building;
- Self management, conflict management;
- Information work and opinion forming, media relations;
- Civic participation;
- Presentation, moderation.

6 ECTS

## MODULE 9 | 4 DAYS

### Perspectives on the Use of Renewable Energy

- Developments in world energy consumption;
- Future technologies;
- Technology assessment;
- Environmental protection and environment-related issues.

4 ECTS

## MODULE 10

### Master's Thesis

- A master's thesis is written with the assistance of a supervisor, preferably, relating to the student's occupational activity and focusing on the feasibility of practical implementation.

30 ECTS

# Admission

## TUITION FEE

EUR 23,500 (VAT-free) including course materials and refreshments during breaks. The tuition fee does not include the cost of trips and overnight stays.

## INFO SESSIONS

Presentations of the MSc(CE) Program will be held in the form of monthly info sessions. During these info sessions the Academic Director and Program Managers provide you with in-depth information on the program and look forward to answering your questions.

**Registration:** [newenergy@tuwien.ac.at](mailto:newenergy@tuwien.ac.at)

## Admission/Application

Start Your Online Application:  
[www.tuwien.at/newenergy](http://www.tuwien.at/newenergy)

After receiving your complete application, an individual admission interview with the Academic Director and the Program Management is planned. Admission interviews will take place after individual appointment.

## PERSONAL ADVISORY SERVICE

### TU Wien | Academy for Continuing Education

Mag. Isabelle E. Starlinger  
Senior Program Manager

## FACULTY

Dr. **Hamid Aghaie** – Wien Energie GmbH  
Prof. DI Dr. **Amela Ajanovic** – TU Wien  
DI **Hemma Bieser** MSc – Avantsmart  
Univ.Prof.Dr. **Anton Burger** – Catholic University Eichstätt-Ingolstadt  
MR Dr. **Gerhard Burian** – ETRI – European Training and Research Institute  
Dr. **Benedikt Ennser** – Federal Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology (BMK)  
FH-Prof. DI **Hubert Fechner** MAS, MSc – Österreichische Technologieplattform PHOTOVOLTAIK  
DI **Alexander Fischer** MSc – TB Fischer GmbH  
Dr. **Anton Friedl** – TU Wien  
DI Dr. **Werner Friedl** MBA – Fronius International GmbH  
Univ.Prof.Dr.-Ing. **Wolfgang Gawlik** – Jade Hochschule Wilhelmshaven  
Univ.Prof. DI Dr. **Reinhard Haas** – TU Wien  
DI **Roger Hackstock** – Energy Academy & Freelance Energy Policy Consultant  
Ass.Prof. DI Dr. **Michael Harasek** – TU Wien  
Priv.-Doz. DI Dr. **Christoph Hauer** – Vienna University of Natural Resources and Life Sciences  
DI **Marcus Hummel** – e-think, Zentrum für Energiewirtschaft und Umwelt  
Prof. DI Dr. **Gerfried Jungmeier** – Joanneum Research, Graz  
Dr. **Marek Kobialka** – Vienna Insurance Group  
DI Dr. **Lukas Kranzl** – TU Wien  
DI **Martin Krill** – Profes, Professional Energy Services GmbH  
Univ.Lektor Dipl.-Ing. Dr.techn. **Friederich Kupzog**  
Mag. **Robert Maier** – Raiffeisenlandesbank Niederösterreich Wien AG  
Ing.Mag. **Helmut Maislinger** – Windkraft Simonsfeld AG  
Dr. **Gábor Milics** MSc – Széchenyi István University  
Dipl.Ing. **Kurt Misak** – Austrian Power Grid AG  
**Gerhard Mütter** MSc – Enery  
Univ.Prof.Dr. **Miklós Neményi** Ph.D – Széchenyi István University  
Mag. **Karl Newertal** – BDO Österreich  
DI Dr. **Mario Ortner** – ic-Projekte Projektentwicklung & Management GmbH  
Univ.Prof.Dr. **Bernhard Pelikan** – Vienna University of Natural Resources and Life Sciences  
Dr. **Hermann Pengg-Bührlen** – kiwi AG  
**Theresia Perger** – TU Wien  
Dr. **Gerhard Piringer** – University of Applied Sciences Burgenland  
DI Dr. **Reinhard Rauch** – Karlsruher Institut für Technologie (KIT)  
DI **Georg W. Reinberg** – Architekturbüro Reinberg ZT GmbH  
DI Dr. **Gustav Resch** – TU Wien  
Dr. **Friedrich Stastny** – Freelancer  
**Thomas Steinberger** MSc – AFRY Management Consulting Austria GmbH  
Ass.Prof. DI Dr. **Karin Stieldorf** – TU Wien  
**Alexander Stoeckl** – Energiewerkstatt (EWS)  
Prof.Dr. **Páll Valdimarsson** – Pvald ehf  
Dr. **Bastiaan van Ruijven** – International Institute for Applied Systems Analysis (IIASA)  
Dipl.-Päd.Ing. **Werner Weiss** – AEE INTEC  
DI **Lukas Weißensteiner** – RP Global Austria

This represents a selection of the faculty of class 2024–2026.

Help create a world with  
a sustainable future!
