RANGE OF DUTY

The team is responsible for all procurement relevant topics within the GUT department. Tenders are issued via the electronic

[procurement platform](#)

in line with BVerG 2018. The announcement and submission of tender documents is made electronically; an electronic signature (citizen card, mobile phone signature) is required for tendering. Tenders are issued for construction services, craftsman services and facilities. The prices for electric energy will be fixed in advance by monitoring of energy stock market. The efficient use of energy is for GUT of special importance.

Services

- public tenders in line with BVerG 2018
- assistance with all procurement relevant topics
- contact person for procurement via BBG
- provision of energy and gathering information on energy efficiency
- standardization of procurement processes (General terms and conditions)

Further information can be found under [Downloads](#) section on our homepage.
