### **Contents:**

- basic principles of learning and teaching
- basic concepts, processes and methods of university didactics and academic instruction
- formation of learning outcomes
- quality features of university didactics and academic instruction
- awareness raising as reflective professionals
- individual professional support and exchange

### **Methods:**

We work in various interactive settings using a variety of teaching methods ranging from individual reflection to pair work, smaller and larger group activities, discussions and short theoretical input sessions. The methods used are all among the most essential teaching methods for academic instruction. This allows a hands-on experience and provides examples of the methods' actual implementation.
