

1st International Symposium on Three-Dimensional Nanomagnetism (3DMAG 2026)

July 13-17, 2026

Vienna – Austria

<https://www.tuwien.at/en/phy/iap/conferences/3dmag-2026>

Call for Exhibitors

The 1st International Symposium on Three-Dimensional Nanomagnetism (3DMAG 2026) will be held in Vienna (Austria), on July 13-17, 2026.

3DMAG 2026 will be the first edition of this international symposium devoted to 3D nanomagnetism. The event aims to bring together this vibrant, rapidly growing multidisciplinary community, to discuss the challenges and opportunities of expanding nanomagnetism into the third dimension. To foster community and encourage interaction, the conference will be held in a single-session format featuring invited and contributed talks. Ample time will be allocated for discussions, networking, poster sessions, round tables, and social activities. We expect 150-200 people from all around the world. The list of confirmed keynote and invited speakers includes some of the most prominent figures in magnetism and spintronics worldwide.

Focus topics of the conference will include: nanofabrication, characterisation, and modelling of 3D magnetic systems, spin topology in 3D, physical phenomena such as frustration and fluctuations in 3D, new 3D architectures, effects resulting from the interplay of bulk, surface and curvature, magnetization dynamics and excitations in 3D, spintronics in 3D, and applications of 3D nanomagnetism in, for example, sensing, storage, unconventional computing, and related nanotechnology fields, *e.g.*, bio-magnetism.

The conference will be held in the heart of Vienna, the capital of Austria, a city renowned for its rich history in art, music, and science.

Companies providing scientific instrumentation for nanofabrication, magnetic measurements, spintronics, vacuum equipment, microscopy techniques, micro and nanoelectronics, spectroscopy, advanced analysis of nanostructured materials, thin films, multilayers... and who are interested in presenting their products, will have the possibility to participate to the conference and effectively promote their business thanks to the following sponsorship packages.

CATEGORY	SPONSORSHIP BENEFITS
Bronze - €500	<ol style="list-style-type: none"> 1- The company logo will appear on the 3DMAG2026 conference website, with a link to the company website. 2- The company logo will be printed on the abstract books distributed to participants at the conference. 3- Opportunity to provide brochures and/or gadgets included in the conference material. 4- The company support will be acknowledged in all official speeches (start, end, dinner).
Silver - €1,000	<p>Bronze benefits, plus:</p> <ol style="list-style-type: none"> 5- Conference registration for up to two people, with access to scientific talks and coffee breaks. 6- A booth close to the conference room with a desk, chairs, poster panels, power plugs, wi-fi connection.
Gold - €1,500	<p>Silver benefits, plus:</p> <ol style="list-style-type: none"> 7- Sponsorship of a specific event or activity during the conference (to be defined in agreement with the conference organizers). Possible examples include: <ul style="list-style-type: none"> - A prize for the best talk by a young researcher. - A poster prize. - A prize for a talk in a category aligned with the company's interests. - Sponsorship of a specific session, including the option to show a short (up to 2-minute) video or deliver a brief live pitch at the beginning of the session. This introduction would typically cover: a brief introduction to the company and its products, motivation for supporting this event, information about career opportunities, ideas for potential collaborations, etc.

Companies willing to support the **3DMAG2026** conference should contact the conference organization at: 3dmag@tuwien.ac.at

Journal / Editorial Partnership

In addition to commercial sponsorships aimed at scientific instrumentation and industrial exhibitors, 3DMAG 2026 also welcomes partnerships with scientific journals and editorial organizations. These partners play a distinct role in supporting the scientific community by promoting excellence, visibility, and early-career researchers rather than commercial products. For this reason, journal and editorial contributions are handled under a dedicated partnership framework, separate from commercial sponsorship packages.

Editorial Partnership Categories

Prize Partner – One Prize (€250)

- Sponsorship of one scientific prize (e.g. best talk or poster).
- Acknowledgement on the conference website.
- Acknowledgement during the prize ceremony and closing remarks.

Prize Partner – Two Prizes (€500)

- Sponsorship of two scientific prizes (e.g. winner + finalist awards).
- Acknowledgement on the conference website.
- Acknowledgement during the prize ceremony and closing remarks.

Exhibition Space

Physical exhibition space (booths) is reserved for commercial sponsors. Journals or editorial partners wishing to have a booth or exhibition presence at the conference must follow the same sponsorship categories and conditions defined for scientific instrumentation and industrial companies.
