

# Curriculum Vitae

---

## Personal Information

Name: Robert Klausser  
Born: 12.02.1994 Vienna  
Adress: Wattgasse 38/9 1160 Wien  
Phone: +43699 18319058  
email: robert.klausser@tuwien.ac.at

---

## Education

- **Dipl. -Ing. - Technical Chemistry** 2022  
Technische Universität Wien  
equivalent to Master of Science (MSc)  
specialized in biotechnology and bioanalytics
- **BSc - Technical Chemistry** 2020  
Technische Universität Wien

---

## Research Experience

- **Master Thesis** 2022  
„Foam Control and Inline Cell Density Monitoring in a Lab-Scale Bioreactor“  
advised by Associate Prof. Dipl.-Ing. Dr.nat.techn. Spadiut Oliver
  - **Bachelor Thesis** 2020  
„Fed Batch Refolding of Inclusion Bodies“  
advised by Associate Prof. Dipl.-Ing. Dr.nat.techn. Spadiut Oliver
  - **Scientific Staff** 2020 - 2021  
at IBD-Group TU Wien, working on inclusion body processing and protein refolding
  - **Internship at TU Wien** 2011  
as part of my pre-scientific thesis: „Fe(II)-Komplexe mit Spin-Crossover Eigenschaften“  
for my highschool graduation
-

---

## Other Professional Experience

- **Internship at Boehringer Ingelheim RCV** 2021  
gathered industry experience, working on the upscaling of inclusion body processes to the pilot scale
- **Civil service** 2013 - 2014  
as a paramedic at Johanniter-Unfall-Hilfe

---

## Relevant Skills

- **Languages**  
German: Fluent  
English: Proficient
- **Technical**  
Excellent with MS Office  
Experienced with Adobe Photoshop and InDesign  
Experienced with both SLA and FDM 3D-Printing  
Basic Skills at technical drawing with Autodesk Fusion 360

---

## Awards

- **3rd place at the Dr. Hans Riegel Fachpreise** 2012  
in Chemistry for „Fe(II)-Komplexe mit Spin-Crossover Eigenschaften“

---

## Research Interest and Soft Skills

- **Inclusion body processing**

IBs and protein purification have been my main field of research thus far. I firmly believe that this topic is far from being „solved“, and I am especially intrigued by the complexity and interconnection between the involved steps.

- **Teaching**

Besides research, I am very interested in pursuing a career that involves teaching. I have enjoyed my opportunities to teach so far, and think that there is a severe lack of people with a sincere interest in educating others.

- **Hobbies**

My immensely diverse interests have led me towards many instructive experiences. I am part of a sports team with the Vienna Squash Knights, have produced three rock albums and founded a music label to publish them, and also shared the stage as the drummer of multiple bands.
