

PR 280.921 | Winter Semester 2023 | 12.0 ECTS

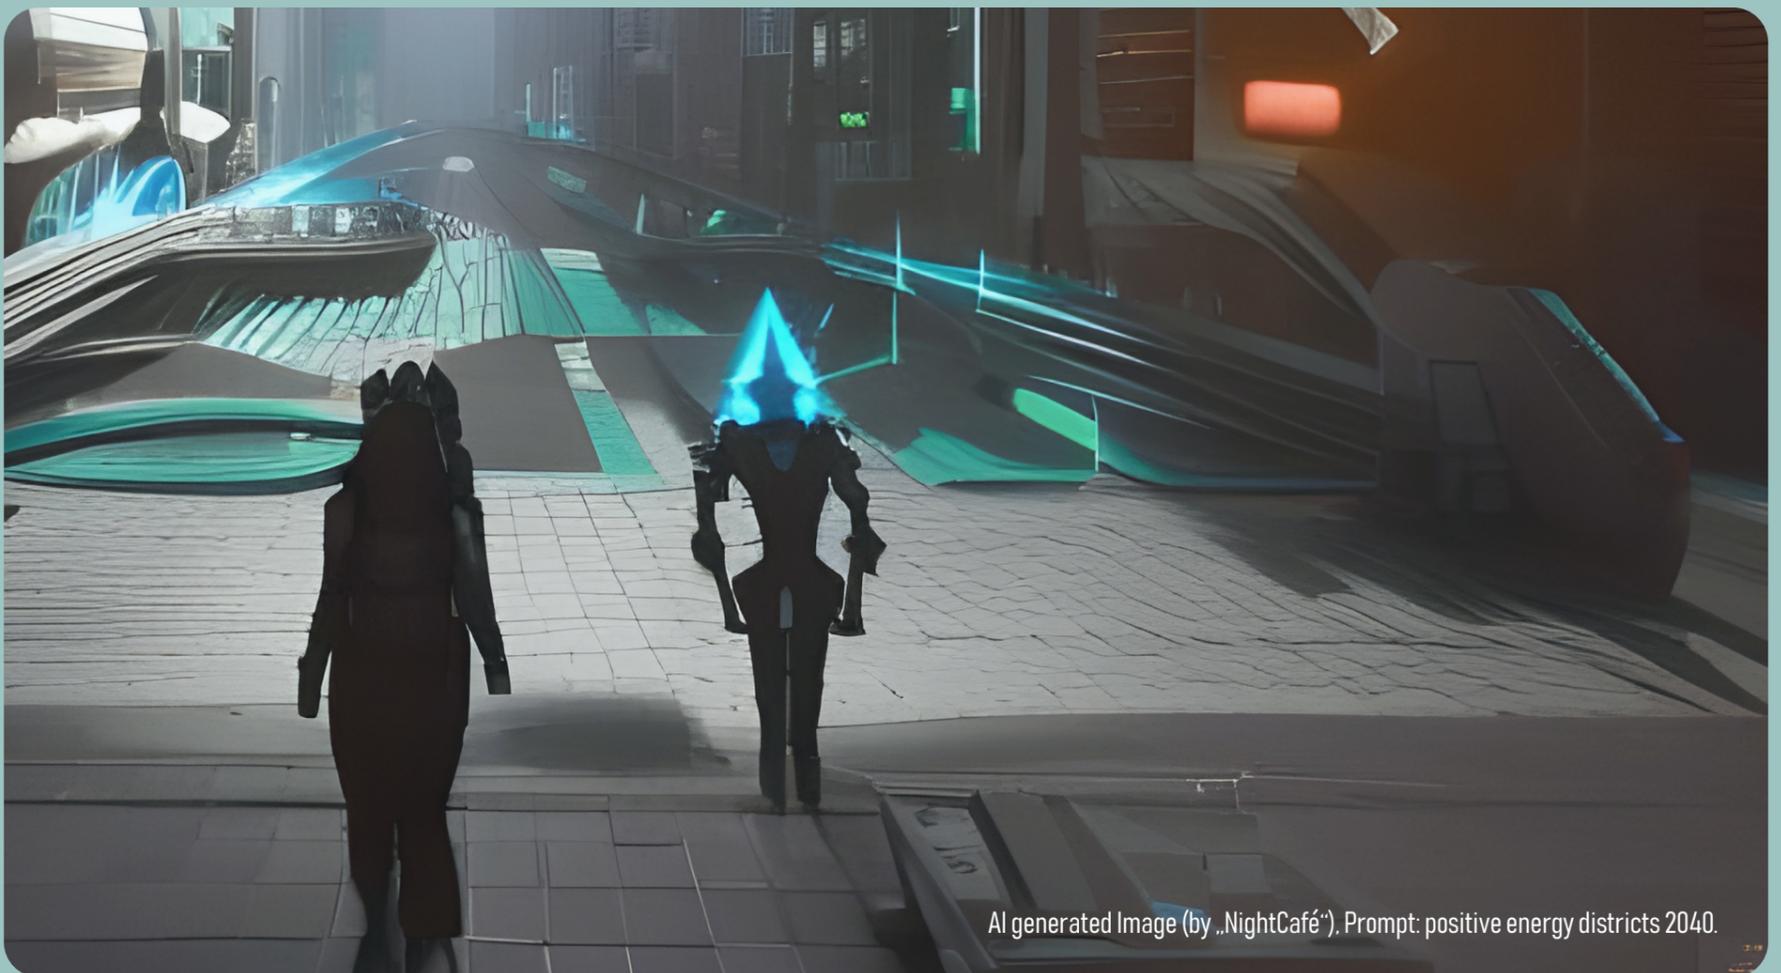

POSITIVE ENERGY DISTRICTS 2.0

MASTER PROJECT SPATIAL PLANNING

Hartmut DUMKE | TU Vienna

Milan HUSAR | TU Bratislava

Aleksandar DJORDJEVIC | University of Belgrade

AI generated Image (by „NightCafé“), Prompt: positive energy districts 2040.

You are interested in...

- ... the vision of „Positive Energy Districts“ (PED)?
- ... renewable energies, integrated energy/spatial planning and energy governance?
- ... possible transformations in the domains of heat, electricity and mobility?
- ... environmental and social impacts of different planning alternatives?
- ... integrated (planning) approaches, scenario and backcasting methods?

You will work in international student teams together with colleagues from Bratislava and Belgrade!

Registration till June 30 2023
