

ECSCD-16/ICSOS-14

Date: June 2 – 6, 2025

Place: [TUtheSky](#), TU Wien, Vienna, Austria

Scope: The European Conference on Surface Crystallography and Dynamics (ECSCD) and the International Conference on the Structure of Surfaces (ICSOS) will discuss the recent advances in the characterisation of surface structure and dynamical processes, as well as their interplay, at the atomic length scale. Since their inaugural editions in 1985 (ECSCD) and 1984 (ICSOS), they have become well-established meeting points for the surface science community. In their upcoming 16th and 14th editions, they will tackle 2D materials, single molecules on surfaces, characterization by LEEM, PEEM, and LEED-IV, oxides, solid-liquid interfaces, and many other representative topics of present-day surface science.

The conference will be complemented by a free satellite [workshop on surface structure determination with LEED I\(V\)](#) (ViPERLEED package) on June 6 and 7.

Prizes: [ICSOS Surface Structure Prize](#): honouring scientists with a distinguished body of work in surface and interface structures

[ICSOS Young Scientist Prize](#): awarded for the most outstanding PhD thesis in the field

Dates:

January 15:	ICSOS Prize Nominations Deadline
March 31:	Abstract Submission Deadline
April 27:	Abstract Acceptance Notification
May 12:	Registration Deadline
June 02–06	Conference – see you in Vienna!
June 06–07	Satellite Workshop on LEED I(V)
