Estate
User
Group**

... Science meets Practice

The REUG

Our Vision

The REUG – Real Estate User Group is a non-profit association, hosted at and sponsored by the Center for Information and Facility Management (IFM) at the Vienna Technical University. It forms the Link between practitioners and researchers. Practical questions and problems are clarified based on scientific facts. Furthermore suitable solutions for everyday life are presented. Our events and activities are already well-known as a platform for networking, sharing expertise and best practices among Facility and Real Estate Management professionals, working both in companies and different institutions as well.

Science and Practice

The REUG is also connects to the scientific research area at the IFM. Existing experience and know-how in companies is accumulated, the outcoming findings are incorporated into standards The goal is to use this knowledge to derive solutions that fit into daily live and which can be implemented in your company. Using this Knowledge potential savings can be identified. Established 1999 the REUG has about 1.000 members in CEE, thereby being one of the largest representations in Europe.
